PROFESSIONAL SUMMARY

Full Stack Developer specializing in **MERN, TypeScript, and Tailwind CSS**. I build scalable web apps end-to-end, from backend architecture to pixel-perfect, luxury UI/UX. Currently diving deep into **AI integration** to build smarter, more powerful products.

EDUCATION

Guru Tegh Bahadur Institute of Technology

Bachelor of Technology in Electronics and Communication

2022 – 2026

Delhi, India

JM International School

XII (CBSE)

2021

88%

PROJECTS

Archive 🔗 | 🐙 | MERN Stack, TypeScript, Cloudinary, Clerk, FFmpeg

- Architected a full-stack media management platform using **MongoDB, Express, React, and Node.js (MERN)**, with TypeScript across the entire pipeline.
- Engineered an asynchronous server-side video assembly pipeline utilizing **FFmpeg**, handling end-to-end media uploads via **Cloudinary**.
- Integrated secure user authentication using **Clerk** and established a seamless media upload pipeline via **Cloudinary** integration.
- Designed a premium, warm archive-themed user interface using **Tailwind CSS**, optimizing data fetching and layout responsiveness for media-heavy components.

Sandburgs 🔗 | 🐙 | React, TypeScript, Tailwind CSS, Redux Toolkit

- Engineered a high-performance Food Delivery Web App using **React** and **TypeScript**, ensuring **type safety and scalable architecture**.
- Implemented centralized state management using **Redux Toolkit** for real-time cart updates and seamless user navigation.
- Integrated **Tailwind CSS** for a minimalist, premium, and responsive user interface.
- Optimized application performance by implementing **lazy loading** and **custom hooks**, significantly reducing initial load times and enhancing UX.

FlixVerse 🔗 | 🐙 | React, Firebase, TMDB API, OpenAI GPT API, Tailwind CSS

- Developed a Movie Discovery Platform using React and **TMDB API**, featuring **dynamic data fetching** and horizontal scrolling.
- Integrated **OpenAI GPT API** to build a custom AI Movie Suggestion feature for personalized user recommendations.
- Secured user data and enabled real-time authentication using **Firebase**, providing a smooth login/signup experience.
- Architected a **modular UI** with reusable components and **optimized API calls** to prevent redundant network requests and improve overall responsiveness.

TECHNICAL SKILLS

Languages: C/C++, JavaScript, TypeScript

Frontend: React, Redux, Tailwind CSS, HTML/CSS

Backend & Databases: Node.js, Express.js, MongoDB, Firebase, REST APIs

AI/LLM: LangChain, RAG

Tools & Services: FFmpeg, Clerk Auth, Cloudinary, Git, GitHub

ACHIEVEMENTS

- Smart India Hackathon (SIH) Participant.
- Build with India Hackathon Participant.
- Deloitte Technology Job Simulation (Forage) - Completed practical tasks in Coding and Development.
- PCB Design Workshop at CDAC Noida.
- Machine Learning Certification from NIELIT.
